

Small business customer relations management

What is it?

7Contact is an easy to use, customer contact management solution which features:

- daily call reports (who said what to who about what, with what followup)
- schedule meetings and follow up calls
- task management organized by due date, client and/or subject
- promotion to customer mail merge campaigns
- customer retention mailings
- built-in word processing
- print mailing labels
- link individuals to companies and companies to individuals
- track multiple phone numbers and addresses

7Contact is a sub-set of 7Office, a comprehensive enterprise sales cycle solution. Upgrading to 7Office is easy.

What's in this package?

A full working copy of 7Contact, ready to use. Be sure to read the documentation.

What does it cost?

7Contact is shareware. No cost for the first 500 entries. \$99 to disable the payment notification reminder after that.

Support & Upgrades

The only support we offer for 7Contact is for users who upgrade to 7Office Sales Cycle Management. You can upgrade to 7Office quickly and easily, which comes with vigorous ongoing customer support. Add invoicing, purchasing, customer proposal writing and inventory control. In addition to adding the "back end" of 7Office to your existing "front end", 7Office is also highly networkable, including via the internet. 7Contact is single user.

Distributing 7Contact

Contact us if you wish to distribute the 7Contact package.
